⭐ Assembly Steps

1 **Identify Base**

Select the panel marked #1. This will be your base panel. Place it flat on a level surface with the numbered side facing down.

2 **Attach First Layer**

Take panels #2, #3, #4, #5, and #6. Using the connector clips, attach each panel to the edges of the base panel (#1). Ensure the numbered sides face inward.

3 **Build Second Layer**

Take panels #7, #8, #9, #10, and #11. Connect these to the available edges of the first layer, using connector clips to secure each seam. Ensure they angle properly to create the dodecahedron shape.

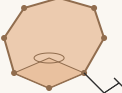

4 **Complete the Structure**

Take the final panel (#12). This will become the entrance panel. Carefully connect it to the remaining open edges to complete the dodecahedron shape. Leave one edge unclipped to create the entrance.

5 **Check and Secure**

Check that all panels are aligned properly. Use the Allen key to tighten all connector clips. Gently test the stability of your "Minou" house. Adjust if needed.

6 **Add the Cushion**

Place the plush cushion inside your assembled "Minou" house through the entrance opening. Adjust the cushion for comfort.

🎧 Final Setup & Care

🟠 **Placement:**
Position your "Minou" Pet House in a draft-free, comfortable spot where your pet can relax undisturbed.

🟠 **Multi-Use:**
The flat top panel makes a great spot for a small lamp or decorative item – use as a unique side table!

🟠 **Care Instructions:**
Wood Structure: Wipe clean with a dry or slightly damp cloth. Avoid abrasive cleaners or excessive water.
Plush Cushion: Spot clean recommended. Cover is removable and hand washable with mild detergent.

Enjoy your unique AnimalDeLux "Minou" Pet House!
