Assembly Steps

1 Prepare

Lay the two Side Panels flat, ensuring the slots for the dowels are accessible.

2 Insert Lower Dowel

Carefully slide one Wooden Dowel through the lower pair of slots on both Side Panels.

3 Insert Upper Dowel

Slide the second Wooden Dowel through the upper pair of slots on both Side Panels.

4 Form Teepee

Gently lift the Side Panels upwards, bringing the top edges closer together to form the A-frame / teepee shape.

5 Attach Top Panel

Align the Top Panel with the grooves at the very peak where the two Side Panels meet. Press firmly into place.

6 Place the Bed

Place the Plush Pet Bed inside the assembled teepee structure, resting it securely on the two Wooden Dowels.

Final Setup & Care

Placement:

Position your assembled Tipi Eco in a quiet, safe spot your cat loves.

Introduction:

Let your cat explore their new space at their own pace. Adding a familiar blanket or toy inside can help!

Care Instructions:

Teepee Structure: Wipe the recycled plastic panels clean with a damp cloth as needed.

Plush Bed: Spot clean recommended.
